

I am writting to you concerning the Docket filed by the Consumer's Banking Assn to weaken our state's telephone privacy law. I don't want any business I have an association with to be able to contact me at my home to try and sell me or my wife a product I am nto interested in purchasing if I want a product I will contact the business myself. I enjoy being able to set down with my family and and have our meal interuppted by someone calling me to sell me a product. Please defend by privacy by rejecting to docket.

Thanks

Robert Smith
